Introductions

Updates:

Ellsworth: none

MaineDOT:

Acadia Gateway

- Delays with soil and septic systems

Airport Relocation

- MaineDOT is short on funding
- Grange Hall is eligible for historic registry
- Route 230 project is being delayed
- Utility poles need to be moved and some wire put underground
- Airport will relocate their road to a position south of the current location but north of Route 230

MDI Head of Island

- Intersection redesign is moving ahead
- Project costs have increased dramatically
- Public meeting on April 2nd

March 31 Meeting On Land Use and Transportation

- Add Gary Briggs and Tom Testa to notification list

Downeast Sunrise Trail

- April 2nd Trails, Business and Community Development Conference UM-Machias
- Handed around registration form
- RFP went out but
- Next meeting: Wednesday March 26th 1:00 PM DERC&D

STAR Project Contracting

- Jim handed out project summary indicating roles

- HCPC – Lead
- Sebago Technics – Traffic engineering
- Crikelair Associates – Transit Planning
- Coplan Associates – Landscape architecture
- Anna Price indicated that a substantial amount of paper work will be needed to complete the contracting process
- The project can move ahead, but under low-steam until the contract is signed. HCPC will continue to work on research and information gathering, but subcontracts will have to wait.

Handout

- Time and task table
- Subcontracts
- MaineDOT Contracting process

Purpose and needs
